ABOUT ME

I am a Junior Backend Developer with hands-on experience in building backend systems for web and mobile applications. Skilled in API development, database integration, authentication, security and server-side logic using FastAPI, Django, and PostgreSQL. Communicates effectively with frontend teams and has a basic understanding of frontend logic to support smooth integration and collaboration. Primarily focused on backend development, with strong interest in AI, automation, data science, and machine learning.

EDUCATION

Bachelor of Science in Information and Communication Technology (ICT)
Rangsit University, Thailand
2023 – 2026
GPA : 3.68 (First Class Honors)

TECHNICAL SKILL

Programming Languages : Python, JavaScript, HTML, CSS
Frameworks / Libraries : Django, FastAPI, React, Tailwind CSS
Databases : PostgreSQL, MySQL, Supabase, MongoDB
Tools / Platforms : Git & GitHub, Postman, Docker, Figma, VS Code, Linux
Deployment / Cloud : Render, Vercel, Cloudinary, DigitalOcean Spaces

PROFESSIONAL EXPERIENCE

Backend Developer Internship
Civil Master Solution | Django, Supabase, Render — **Aug 2025 - Nov 2025**

- Developed backend features for a production web application deployed on a live domain
- Implemented admin CRUD operations, authentication, database integration, chatbot integration, and email automation
- Worked with Supabase and supported deployment on Render

Freelance Backend Developer
Concert Ticket Ordering System | Django, PostgreSQL, Render, Cloudinary — **Oct 2025 - Feb 2026**

- Built backend functionality for a concert ticket ordering platform deployed on a live domain
- Implemented admin CRUD operations, user sign up/sign in, authentication, database integration, and CSV export
- Used Render PostgreSQL, integrated Cloudinary for image storage, and deployed the system on Render

Volunteer Backend Developer / Mentor
Flight Ticket Ordering System | FastAPI, PostgreSQL, Docker — **Jan 2026 - Apr 2026**

- Developed backend features for a flight ticket ordering system in a real-world environment
- Implemented admin CRUD operations, user and staff management, authentication, database handling, and currency management
- Used Docker for development and supported hosting on the client server

Frontend Developer
Civil Master Solution | React, Tailwind CSS, Vercel — **Nov 2025 - Jan 2026**

- Built a product showcase and advertisement website for a company project
- Developed responsive frontend pages using React and Tailwind CSS
- Supported deployment on Vercel
